# CITY TAKES SECOND STEP IN ANNEXATION

## Council Orders Public Hearing On Oct. 23, Advantages Are Told

**A second step towards the annexation of the Christen Lands — more than 1,000 acres of presently uninhabited grazing lands south of the city's boundaries — was taken at Monday night's meeting of the Daly City Council.**

**The council voted approval of a resolution calling for a public hearing on the annexation. The hearing will be held in the Council Chambers at the City Hall at 8 p.m., October 23.**

**Action was taken following the reading of a report to council by City Manager Edward Frank advocating the annexation on the grounds that it is a natural development of** the city, affords the city a master plan for this entire area, and control over removal of dangerous topographical slopes.

"The city will be thus enabled to work closely with property owners in a master plan for this 1065 acres of land," City Manager Frank said, "rather than planning it in a more dangerous piecemeal fashion."

**Frank went on to point out that such planning would or could include light industrial, commercial, multiple residential or single dwelling residential planning for sections of the area best adaptable to such expansion.**

The city manager's report also stressed the fact that with the annexation of the Christen Lands the city would be better able to plan its street pattern so that it will be more advantageous to the public with

## FOUR JAILED ON DOPE, BURGLARY CHARGES FRIDAY

Four men were held in San Mateo County jail this week on narcotics charges and as suspected burglars following their arrest in Pacifica last Friday night.

The four were arraigned before Municipal Judge Biscay in South San Francisco Monday and ordered held to answer to San Mateo County Superior Court.

They were arrested by Pacifica officers Friday night when their auto was stopped for failing to dim its lights. The officers found marijuana seeds and plants in the car and what police reports said were possible burglar tools.

The four held are James Whelan, 23, of 874 Lafayette street, Santa Clara; Frank Hall,

## NIKE BASE TRIO HELD BY POLICE

Caught in the act, as they were allegedly burglarizing the Sharp Park Auto Wrecking Company in Pacifica early Monday morning, two young enlisted men from the Nike Anti-Missile Base were booked by Pacifica Police. Later that same morning, police picked up a third youth, who, they claim, admitted his guilt, and booked him along with the other two.

The two captured in the auto wrecking lot were Alfred Giovangello, 18, Nike Base, and James Bostick, 20, from the same army installation. Both were routed out from hiding behind some autos in the lot when they tried to escape from police. They had inadvertently tripped the burglar alarm, police said.

Later in the day, police picked up Albert L. Armstrong, 19, who admitted taking part in the attempted burglary and said he was recently discharged from service at the Nike Base.

Police Officers Al Tebaldi, Mel Nelson, Paul Averiett and Ray Shipley rounded up the pair in the auto wrecking lot. The third man was arrested by the officers on the street in Pacifica. Police Inspector Robert Greer was in charge of the investigation.

"They will all face burglary charges," Inspector Greer said. "The officers found parts of autos, stolen from the lot, in the car the trio were using."

## New Mission, Knowles Interchange, Green Belt Idea Proposed

**Plans to improve the traffic flow between the Mission street district at "the top of the hill" and the Westlake district, widen Mission at the top of the hill and perhaps install an attractive green belt between Los Banos and Knowles avenues, were laid before the Daiy City City Council last Monday night.**

**The plans presented as a recommendation by City Councilman Edward Dennis were taken under advisement by the council.**

**One of the first steps called for in the plans was making Knowles avenue a one-way traffic street in an easterly** direction, from Junipero Serra to Mission street. This would call for Los Banos avenue being made a one-way traffic street in the opposite direction. This would eliminate some of the traffic hazards now existing on both streets with two-way traffic presently operating on the narrow streets.

Knowles avenue improvement at this time would mean, Councilman Dennis' plans set forth, that the city would cooperate with the State Division of Highways which is expected to start construction of the Junipero Serra Freeway next year.

**STATE OFFERS HELP**

The division of highways has already informed the city that the state will construct an overcrossing over the new Junipero Serra boulevard, with a width commensurate with the width the city proposes to construct for Knowles avenue.

A new interchange at Knowles avenue and Mission street would be of a type much safer than the present traffic situation at that corner, the recommendation pointed out.

## SF YOUTHS ARE CAUGHT AFTER WILD DC CHASE

Daly City police arrested two 18-year-old youths late Monday night on suspected auto theft charges following a wild chase through red lights on Alemany boulevard.

Police said they saw Melvin A. Issaacs, 18, of 469 Nevada street, San Francisco, and Ralph E. Crittle, 18, 363 Lisbon, San Francisco, halt a 1958 Pontiac at 300 Park Plaza in Westlake and then speed off, ignoring red lights.

They were booked and released to San Francisco City Polite. The car was stolen Monday in front of 116 Schwerin, San Francisco, police said.

## Sundermann Will Relate Stories Of City's Past

A program related to the Daly City 50th Anniversary celebration will be presented at 8 p. m. Sept. 21 in the Westlake Library on Southgate avenue.

Henry Sundermann, Sr., well known in the area since the founding of Daly City, will tell interesting stories of Daly City's past.

Another attraction will be a folk singer, Don Grimes, who will present songs of early California.

Sundermann has resided in Daly City since 1905, is a former fire marshal and fire chief, served for 22 years as a member of the city council and was also a former president of the Daly City Library Commission. He has a wealth of information on the beginnings of Daly City.

## Daly City Woman Finishes Herculean Task On Golden Jubilee Awards Ribbons

**Mrs. Emil A. Hercsuth of 271 Woodrow street, Daly City, has cut through more than 2,000 yards of ribbon to get to the city's Golden Anniversary Celebration, which will be held October 7-14.**

**The 2,000 yards of ribbon represents the amount of material she used in making the 960 awards that will be presented to winners of the various events connected with the week-long festivities.**

This herculean task required more than 450 hours of painstaking labor and probably is the greatest single contribution of effort made by any individual to the celebration. And, Mrs. Hercsuth did it for free.

"I didn't really know just how big a job I was undertaking when I volunteered for this one," she said as she boxed up the last of the multi-colored ribbons over which she has been working for the past three months.

But work isn't something Mrs. Hercsuth is in the habit of backing away from.

**25,000 RIBBONS**

She estimated that since she began her hobby of making ribbons 10 years ago that she has turned out more than 25,000 of them.

It is a hobby that grew out of another one she shares with her husband, an employee of the Coast Division of the Southern Pacific Company Police Department in San Francisco — that of breeding Bloodhounds and Beagles.

"It all happened during field trials being held by the Northern California Beagle Club at the Grizzly Island slough on the Sacramento River," she recalled.

"The trials were ready to start and the ribbons weren't completed. I pitched in to help and have been at it ever since."

She proved so adept at it that soon she was being called upon to make up ribbons for other shows.

**Today, working through the National Ribbon Company of San Francisco on a voluntary basis, she makes all the ribbons for 12 to 13 dog shows in the Bay Area each year.**

She has incorporated many of her own intricate designs in the rosettes that make up the tops of the ribbons. These, she turns out at the rate of from six to nine an hour, depending on how involved the pattern is.

## Conveyor Belt Suggested For Earth Moving

County Supervisor T. Louis Chess and South San Francisco City Councilman Leo J. Ryan spoke at a recent meeting of the San Francisco Lions Club on the development of earth hauling methods from the hills to the west to San Francisco Bay.

Ryan cited the United States Department of Commerce report on the Bay Area's development from 1960-2020 showing that submerged tidelands of San Francisco Bay will be developed within the foresee-

## DROWNING AT SHARP PARK IS MYSTERY

Police of Pacifica were trying this week to unravel a mystery drowning of a Santa Cruz man in the surf off the beach at Paloma and Ocean avenues in Sharp Park Sunday.

The man was first noticed in the surf, apparently struggling for his life, by Russ Chandler, 616 Larchmont street, Colma. Chandler told police and firemen that the man obviously tried to grab his fishing line.

Chandler dropped his surf casting rod and plunged into the surf to the rescue. He got hold of the man and pulled him to shore but Pacifica firemen, summoned to assist, failed to revive him with a resuscitator.

Police later identified him from the contents of his wallet. They said he was John Blasich, 52, of 1502 Laurel street, Santa Cruz.

How he got into the surf, whether having fallen from a passing boat, or having walked into it or perhaps been swept from rocks further along the coast has not been determined.

## San Bruno Citizens And Officials Move On Three Fronts In Truck Battle

**Citizens and officials of San Bruno and the San Bruno Park School District were moving on three fronts this past week in an effort to "break the stranglehold" of dirt hauling truckers on the streets of San Bruno.**

**Citizens, irate over the near fatal runaway truck crash of the previous week, when seven persons were injured and a number narrowly escaped death, were organizing to take "any steps necessary" to halt or at least "slow down the roaring juggernauts weighing in excess of 70,000 pounds which thunder down San Bruno Ave., less than a minute a part from early dawn to dusk."**

The district school trustees voted unanimously to remove, as far as possible all school bus travel from San Bruno Ave., and now have under consideration seven different plans suggested as possible measures to ensure the safety of school children riding to and from school in district operated school buses.

"However, school buses will still operate on portions of San Bruno avenue but only when it is absolutely necessary in order to get children to and from the schools," said Edwin Vallier, director of business administration for the school board.

City attorney Joseph Galligan went before visiting Superior Court Judge Edwin J. Owens in Redwood City Tuesday in effort to prevent an injunction granted Charles Harney's Readymix Trucking company from becoming final.

The injunction granted sometime ago prevented the City of San Bruno from controlling dirt trucking on San Bruno avenue. The city is now seeking a reversal of the injunction on appeal to the State Court of Appeals.

Residents of San Bruno are reportedly walking slowly across intersections to slow down the speed of the trucks and local motorists are driving slowly in front of them to force them to slow down, according to some leaders in the citizens' move against the dirt hauling.

Others are also stationing themselves at the pedestrian activated traffic button at the Third Ave., crossing of San Bruno Ave., and pushing the button to bring the trucks to a halt whenever they rumble down San Bruno.

Among the seven proposals under consideration by the school board are the following:

1. Police escorts for children in all danger zones.
2. Call upon the California Highway Patrol to exercise the right to enforce slower speeds on the trucks as a safety measure.
3. Providing of traffic guards at all crossings of San Bruno Ave. used by school

However, for some of the major awards, a half hour is required to complete the rosette and attach the streamers.

**BIG RIBBON, SMALL PUP**

Mrs. Hercsuth recalled that the largest ribbon she ever put together was won by one of the smallest puppies, a Scottie, at the Oakland Puppy Match. That award had a rosette 15 inches in diameter and three streamers three feet long.

In between her hobbies of making ribbons and helping care for their prize winning dogs, she also finds time to prepare meals and take care of the home for her husband and 13 year old daughter, Diane.

**"It is all a part of the disease we contracted when we got our first dog," she said. "When we won our first ribbon, we were hooked."**

**She added that the hours of tedious work she puts in on the ribbons also has made her quite an authority on television.**

**Banos would have to be purchased to secure the necessary right-of-way for the new interchange between Mission, Knowles and Los Banos. The fact that these lots would not be used in the entirety, thereby leaving remnants sufficient in size for adaptation as parking areas, was also stressed in the proposal.**

Another strong point was mentioned in regard to the presently treacherous Y-intersection at Los Banos and Los Olivos avenues which the proposed plan would eliminate and traffic would be channeled more effectively.

**GREEN BELT PROPOSED**

The green belt possibilities of the plan were touched upon under item nine of the recommendation. This item pointed up the fact that "since the distance between Knowles and Los Banos avenues is not a full city block in length the city can economically buy the lots and widen the two streets as needed.

"If widening is not necessary and the city still desires to remove this somewhat blighted area, it can still purchase the lots and make the area into a green belt or a stretch of boulevard similar to that which now exists on Dolores street in San Francisco.

Councilman Dennis' report and recommendations to the City Council is as follows:

"1.—This facility will improve the traffic flow from the Westlake area to the older portion of the City known as the 'top of the hill.'

"2.—An improved traffic flow to the Mission street area from Westlake should enhance the property values of this area and increase business activity in this same area.

"3.—Making Knowles avenue one-way in an easterly direction and Los Banos avenue one-way in a westerly direction will decrease the hazards of traffic accidents.

"4.—Constructing Knowles avenue at the present time is advantageous to the City insofar that we can cooperate with the Division of Highways as they construct the Junipero Serra Freeway.

"5.—The Division of Highways has informed us that they will build an overcrossing structure over the new Junipero Serra boulevard having a width commensurate with the proposed width which we plan to construct on Knowles avenue.

"6.—The new interchange at Knowles avenue and Mission street will be of a type which will be much safer from a traffic standpoint than that which exists at the present time.

"7.—During the course of construction many lots in the area of Mission street and Knowles avenue will have to be purchased to secure the necessary right-of-way for the new interchange between Mission street, Knowles avenue and Los Banos avenue. These lots will not be used in their entirety, thus leaving many remnants which can be used for parking purposes after this street project has been finished.

"8.—The now treacherous Y-intersection at Los Banos and Los Olivos avenues will be removed and channelized.

"9.—Since the distance between Los Banos and Knowles avenues is not a full city block but rather only one block in depth, the City then can economically purchase these lots and widen these two streets as the need arises. If widening is not necessary and the City still desires to remove this somewhat blighted area, they could still purchase the lots and make this area between Los Banos and Knowles into a green belt or, in other terms, a boulevard similar to that which now exists on Dolores street in San Francisco."

## City Takes

(Continued from Page 1)

crosstown tie-ins to Skyline, Junipero Serra and Hickey boulevards.

**NO NEW TAXES FORESEEN**

"With a greater potential for population increase, Daly City will have, therefore, a greater potential for increasing its income from gas tax revenues, motor vehicle and other-in-lieu taxes," Frank's report set forth. "This would indicate that annexation would not result in any increase in city taxes."

City Manager Frank's report in its entirety is as follows:

"This annexation is a natural to Daly City insofar that it consolidates our boundaries and makes them abutting to our sister cities of Colma, South San Francisco and Pacifica."

"The proposed annexation contains 1,065 acres. It affords the City of Daly City to master plan this entire area, working closely with the property owners, rather than planning it in a more dangerous piecemeal fashion. This would include commercial, light industrial, multiple residential and residential planning.

"We would now have control over the entire canyon in that area. Therefore, dangerous topographical slopes can be removed without regard to maintaining existing grades along the former city boundary lines.

**"Daly City, in having control over this area, will also find itself in a better position to deal with the County in any matters pertaining to this area.**

"Our city will further enhance its position with the State Division of Highways as to what we desire in the way of an east-west freeway in this area and any possible extension of Hickey boulevard.

"From a water works standpoint, having the entire belt between Skyline boulevard and Junipero Serra boulevard will greatly increase our opportunities to provide better and safer water circulation throughout the entire area.

**"From a city street standpoint, we will be able to plan our street pattern in such a fashion that it will be advantageous to the general public as they make cross-town tie-ins to Skyline, Junipero Serra and Hickey boulevards.**

"Inasmuch as no immediate set pans are now existing it is possible that growth of the area be kept at a pace whereby Daly City can reasonably supply all necessary services.

"With a greater potential for population increase, Daly City will, therefore, have greater potential for increasing its income in gas tax revenues, motor vehicle and other in-lieu taxes, thus indicating that there would be no increase in taxes."

children or school buses.

4. Police patrol car protection at all exposed crossings.
5. Improved traffic conditions and safety measures under suggestions, A, B, and C, as follows;

A. Left turn off Junipero Serra onto Jenevein Blvd.
B. Extend Genevein into Crestmoor to cross Junipero Serra and connect with Woodman Way.
C. A four way stop at Crestmoor Dr., and San Bruno Ave., at the upper end of San Bruno Ave., just west of the Junipero Serra crossing, with police car protection for buses bringing children to schools.

6. Provide for immediate construction of a pedestrian cross walk over San Bruno Ave., at Third Ave., the lower end of San Bruno.
7. Open Crystal Springs road, presently closed by City of San Bruno due to difficulties with other communities. This suggestion also carried the provision for two-way traffic on Crystal Springs Rd., and closing the road through the park to all traffic. This would mean that residents occupying homes in the newly developed area south and west of Crystal Springs road could only get to downtown San Bruno via Santa Lucia Ave.

The seven persons injured in the runaway truck accident of Wednesday, Sept. 6, were all treated at Peninsula Hospital. One of them was A. J. Merritt, 36, 53 Seacliff Dr., Daly City, driver of the truck operated by Ratkovich Construction Co., of Redwood City.

Merritt, who rode his truck down the grade trying to halt it or swing it off San Bruno before it crashed through El Camino Real intersection, told police his brakes went out above Junipero Serra.

Thomas Orr, 18, 406 Fairway Dr., South San Francisco, was hurled 175 feet in his tumbling auto when the truck smashed broadside into it as Orr was driving south on El Camino Real with the green light, police said. Orr's injuries included a severe head injury, fractured shoulder and numerous lacerations, hospital officials reported.

Mrs. Mary Malkason, 52, of Los Gatos, received back injuries and her granddaughter, Molly, 9, of 8 Verano Dr., South San Francisco was cut and bruised. William Malkason, 64, Los Gatos was also slightly injured.

Among the others injured were Kenneth N. Roberts, 37, 114 Escanyo Dr., South San Francisco, head injuries and lacerations and Eugene Seybold 30, 229 Paramount Dr., South San Francisco, abrasions and cuts.

able future, particularly for industrial sites.

Supervisor Chess said that the excavation for the fill would have to be completed before the hills to the west are totally developed as housing areas.

Chess and Ryan agreed that a conveyor belt system for transporting earth to the submerged tide land areas would be feasible with proper planning and coordination.

A conveyor belt system, they said, would eliminate the problems now faced by such cities as San Bruno which has been in the news in its fight for relief from truck noise and dirt.

## James Tormey, County School Chief, To Speak Sept. 21 At 17th District Congress PTA

James R. Tormey, San Mateo County Superintendent of Schools, will be guest speaker at the combined Executive Board and regular meeting of the 17th District of the California Congress of Parents and Teachers, to be held at Capuchino High School, San Bruno, Thursday, Sept. 21, at 9:30 a. m.

The title of his talk will be "Breakers and Harbors Ahead." It will be in two parts, and will include some encouraging things which are ahead as well as some of the continued problems in education. One is a problem that involves, and possibly may be solved by, money; the others, and probably most important are problems which cannot be solved by money alone and which may be the most important challenges before parents and educators.

Tormey is a member of a pioneer Peninsula family and has been active in school work in San Mateo County since 1933. He is a graduate of the public schools of San Jose, with educational work at San Jose State Teachers College, followed by post-graduate work in educational work in educational administration and supervision at Stanford University and the University of California.

**Mr. James Tormey, superintendent of schools in San Mateo county, who will be guest speaker at 17th District Congress of PTA, Sept. 21.**

He assumed office as county superintendent of schools Jan. 8, 1951. Prior to his entering the county office, he had been for 14 years director of adult education for the San Mateo Junior College and the San Mateo Union High School Districts, starting the program and developing it to one of the largest such programs in the State, enrolling over 8,000 in classes offered in 30 locations all over the county. The program enrolled an age range of children as young as two years of age and included youth, adult, and teacher training classes.

Tormey is a member of the California Association of County Superintendent of Schools, the California Association of School Administrators, the County and Rural Superintendents Association, the California Congress Teachers Association and holds an Honorary Life Membership in the 17th District California of Parents and Teachers.

He is also executive officer and secretary of the San Mateo Board of Education; Director of KQED, Educational television station in San Francisco; Secretary of the San Mateo County Board of Health; Secretary of the San Mateo County School District Organization Committee; and member of the San Mateo County Mental Health Society. He is also a member of the California Association of Adult Education Administrators, Ethics Commission of the Teachers Association and is on the executive board of the San Mateo County Boy Scouts.

## 'FOCUS ON TEACHERS' STRESSED

The administrators of the Laguna Salada Elementary Schools or, some publicity minded member of the administrative-teaching staffs, stole a leaf from the book on television production when they arranged the first general assembly meeting for the board of trustees, teachers and city officials last Monday at Vallemar school in Pacifica. The "Focus on Teachers" was the title.

Fred Lucas, district superintendent, presented the school district and Pacifica city officials to the assembly. Rung Hasselgren led a community sing-fest and Mrs. Betty Geppert, member of the board, welcomed the teachers, new and old, to the 1961-62 school year.

Mrs. John Hassler, former mayor and now Pacifica councilwoman, represented Mayor Gerald Schumacher, to greet the teachers. She told them it was the desire of the city officials to aid in every possible way the educational program for the future citizens of the community.

Co-operation in the health and education program for the children was stressed by Mrs. Margaret Dailey, president of the Parent-Teachers Association Co-ordinating Council.

George Nuter, president of the Pacifica Chamber of Commerce, extended greetings from the businessmen of the city.

Superintendent Lucas spoke on the staff, now consisting of 208 full-time certificated personnel, 31 of whom are new to the district. He said that about one-third of the teaching staff spent some time in foreign countries so that they might better teach about other nations and help world understanding.

"Praise and Disparagement by Parents" was the title of a talk given by George Kaas of the Pacific Molasses Company. He pointed out the importance of praise and encouragement in aiding the development of students at all stages of life.

"Tools for Teaching," the instructional theme for the school year, was the subject of a talk by Dr. Lucille Foster, assistant superintendent for instruction.

Dr. Foster declared that "good teachers have always used many teaching devices. But, today, we have more tools for teaching than ever before. The task of choosing the right tool to use at the right time has become more complex.

"Present day teaching aids," she said, "include books, films, film strips, television and many other devices. The District is fortunate in having a number of new aids for teachers to use this school year. During the summer the board of trustees authorized the purchase of nine television sets for use in participating in the instructional programs from KQED."

Announcement of the co-chairmanship was made by Mrs. John Chisum and Mrs. John Montgomery, co-chairmen for the North County residential division for the 1961 Crusade.

Sharing of leadership responsibilities in Daly City will help expand the Crusade's campaign into newly developing areas and is in accordance with a growth program being initiated this year by residential division workers throughout the county.

The Crusade's residential campaign will start Monday, October 16, following a Bay Area Koffee Klatch TV training program. The division has a total goal of $209,158 in San Mateo County.

### CALIFORNIANS LEAD IN SPORTFISHING

Californians really like their sportfishing, according to the National Automobile Club.

Paid fishing-license holders in California in 1959 totaled 1,475,977, or more than any other state in the Union.

Minnesota ran second with 1,238,250 and Michigan was third with 1,056,462.

Hawaii, with 2,383 licenses, was last on the list.

## New Traffic Law Changes Are In Effect This Friday, Sept. 15

The speed limit for passenger vehicles pulling trailers has been raised to 50 miles per hour. A driver who is convicted a second or subsequent time for operating a vehicle while his license is revoked, suspended or has been refused will receive a mandatory jail sentence. No open container of an alcoholic beverage may be carried in a vehicle.

These and a host of other changes in California's Vehicle Code will go into effect Friday, Sept. 15, California Highway Patrol Commissioner Bradford M. Crittenden said this week.

"Of particular interest to thousands of drivers is the provision raising from 45 to 50 miles per hour the maximum speed limit for passenger vehicles and commercial vehicles weighing less than 4,000 pounds while pulling trailers.

"The 'open bottle' law now makes it a misdemeanor to drink alcoholic beverages in a vehicle, or to possess or store an open alcoholic beverage container in a vehicle."

Other code changes which affect the motoring public include:

A provision prohibiting the placement of any material, including such products as spray-on tints, upon the windshield or in a position to reduce the driver's view through the windshield.

A provision restricting issuance of commercial plates to station wagons unless such vehicles are used or maintained primarily for transportation of property.

A provision that snow tread tires may be used on the two drive wheels of a vehicle rather than all four wheels. Retained in the law is a provision that snow-tread tires are permitted in lieu of tire chains only where signs are posted by the Division of Highways.

A provision which prohibits U-turns at intersections where traffic flow is controlled by a green arrow unless a sign specifically permits a U-turn.

Two other amendments to laws governing U-turns also become effective Friday. One permits a U-turn on a divided highway in a business district if an opening has been provided in the divided section; a second permits a U-turn across a solid double center line, if other provisions of the law are met.

Pedestrians also were affected by several changes, the commissioner said.

One amendment requires a pedestrian to yield the right-of-way to a motor vehicle anytime he is upon the highway in other than a crosswalk.

Another change requires pedestrians to obey the special "walk — don't walk" signal (where installed) at intersections rather than the green, amber or red bullseyes.

The definition of a motor driven cycle has been revised to include vehicles having less than 15 (formerly 5) horsepower.

## North County Concerts To Start October 14

Mr. Willard R. Engvall, president of the North Peninsula Concert Association, announced this week that the artists for the 1961-62 season have been secured and the dates set for the performances in the Capuchino High School Auditorium. Because of a successful drive last spring, it has been possible to schedule five concerts for the very low membership fee of $6.

The series will open Saturday evening, Oct. 14, with a concert presented by Donna Turner Smith, one of the most gifted young American pianists playing today. She has had a brilliant record of performances since her outstanding debut in Chicago's Kimball Hall.

The first performance, as well as all others in the series, will start promptly at 8:15 p.m. Admission is by membership only; no tickets will be sold at the door. Although membership is closed to all those who were residents in this area during the drive, the association does not wish to exclude newcomers who did not have an opportunity to become members. Any new residents who are interested in securing memberships should call the association's secretary, Mrs. William Wattie, JU 8-4661, for further information.

Artist for the second concert of the series, Jan. 5, is the lovely mezzo-soprano Margo Blum, one of America's recently discovered, fast-rising young artists. She has already appeared with the San Francisco Opera Company, the Portland Symphony, the Dallas Civic Opera, the San Francisco Symphony and the Salt Lake Oratorio Society as well as concertizing throughout the United States and Canada. She was the soloist at the 1960 Democratic National Convention.

On Wednesday, Jan. 31, Celin and Pepe Romero, guitarists, will present a spectacular program of flamenco and classical music. These young men are sons of Celedonio Romero, whom many critics consider the world's greatest classical guitarist. Three years ago, with the aid of a Santa Barbara patron, they moved from Andalucia, Spain, to the United States not knowing the English language. Today they maintain an academy of the guitar in Los Angeles, teaching over 100 students. The sons are each possessed with an extraordinary talent which their father has nurtured and developed into distinctly individual paths of musical expression.

The fourth concert, Monday, Feb. 26, will feature the distinguished American tenor, John McCollum, who has scored repeatedly throughout the United States and Canada as a recitalist, soloist with the leading orchestras, in oratorio, and in opera. He will be remembered by opera lovers for his performances on television with the NBC Opera.

The final program in the series will be on Tuesday, March 13, when Kovach and Rabovsky with two assisting dancers and pianist will present a bravura program of highlights from ballet classics in the great Russian tradition.

Born in Budapest, these dynamic artists received their training in Soviet Russia, appearing in Moscow's Bolshoi Theater.

Later, as stars of the Budapest State Ballet of Hungary, on tour in East Berlin, their flight to the West, dramatized in the book "Leap Through the Curtain," brought them to worldwide attention.

Since then the beautiful Nora Kovach and her dynamic partner, Istovan Rabovsky, have become established hits with the American ballet public.

Members of the North Peninsula Concert Association in addition to attending their own series, by reciprocal arrangement, may attend any performance of the Concert Associations in Richmond, Hayward, Redwood City, Palo Alto or Sunnyvale.

## FRIENDLY VISITING SERVICE OF SAN MATEO COUNTY IS PRAISED IN ISSUE OF NAT'L MAGAZINE

The work of the Friendly Visiting Service of San Mateo County has been highly commended in an article by Mrs. Anne Gross, Director of Volunteers, Mt. Zion Hospital, San Francisco, which will appear in the October issue of the national magazine, "The Modern Hospital." Offering a brief history of the service, Mrs. Gross points to its invaluable work through its organized program of visiting lonely, elderly shut-ins in nursing and boarding homes, and cites it as an example of volunteer service for other counties and communities to follow. The only professionally directed program of its kind west of the Rockies and under the present directorship of Mrs. Lewellyn Kumetat of Burlingame, the Friendly Visiting Service was established in 1957 under the sponsorship of the Assistance League of San Mateo County in cooperation with the Department of Public Health and Welfare and the Volunteer Bureau.

Among the untiring volunteer workers on its staff are Mrs. Milton Veldee of Menlo Park, who has served as a Friendly Visitor for four years, visiting shut-ins in the Menlo Park area, and is, as well, a member of Public Health Officials' Wives, which organization provides tray favors at holiday time to nursing home patients. Another is Mrs. Donald Richmond of San Mateo, a Friendly Visitor since the service was first organized, who visits in the Redwood City area, and who, through the years, has given small, informal parties for the "visitees" and the friendly visitors in her home. Mrs. Ray T. Marsh of San Carlos, a member of the Assistance League and prominent in Friendly Visiting Service activities, serves as Assistance League co-ordinator to the Service, and not only helps plan parties for the "visitees" but assists in arranging quarterly meetings held by the Friendly Visitors.

Due to the large number of requests, there is still an urgent need for Friendly Visitors in the Burlingame and San Mateo areas, declared Director Mrs. L. Kumetat. Anyone interested in becoming a Friendly Visitor, and with an hour or two every week or every two weeks to spare, is asked to contact her at the Volunteer Bureau headquarters, 119 Primrose road, Burlingame, DI 2-3882.

Louis F. Colagiovanni, Christmas Seal chairman, declared: "The assistance given by these generous friends of the association saves thousands of dollars and countless hours of staff time. These precious commodities are then put where they do the most good—into TB control activities."

Christmas Seals will be mailed to some 90,000 San Mateo County homes in November. ## Obscure Language Analysis Is Possible With Electronic Computer

Rapid analysis of obscure and little known languages by electronic computer should become possible within a few years as a result of research now going on at the University of California, Berkeley.

Such analysis, which is of great help in developing materials and methods for teaching a language, could be highly useful in programs such as the Peace Corps, in which there will be a need for individuals to become conversant in little-known African and Asian languages as rapidly as possible.

A computer program for partial analysis of the structure of any language is now being developed on the Berkeley campus by Dr. Sydney M. Lamb, associate professor of linguistics.

Dr. Lamb, who is in charge of a project at the University to translate languages by means of electronic computer, reported on his research at an International Conference on Machine Translation of Languages and Applied Language Analysis at the National Physical Laboratory in Teddington, England.

The linguist has developed a program for use with the University's IBM 704 digital computer which examines sentences in terms of their structure. Thus far, the scientist has fed 5,000 words of English text into the computer. The machine finds that certain types of word combinations tend to recur and makes tentative conclusions as to the grammatical nature of words being studied.

Dr. Lamb estimates that several million worlds would have to be fed into a computer to provide a very extensive analysis of a language. A preliminary analysis—useful for many purposes—might require only 30 to 40 thousand words of copy.

Within a year or two, the linguist expects that the computer program will be producing useful information about the structure of languages. Not long after that, the machine with some human help could, in from a few days to a few weeks, provide enough information about a completely unknown language to make it possible to teach the language in the optimum fashion.

## New Federal Law Extends Vets Pensions

San Mateo County Veterans Service Officer Floyd D. Granger announced this week that a new Federal law, passed by Congress and signed by President John F. Kennedy, extends veterans pensions eligibility to certain veterans previously eligible except for length of active duty.

Specifically, he said, Public Law 87-101 permits the inclusion of active service time during World War I, World War II, or the Korean conflict to meet the 90-day active wartime duty period for pension qualification. It amends previous regulations by providing that qualifying service may have been during more than one period of war.

For example, a veteran might have had 60 days of service in World War I and 30 or more days of active duty in World War II. Until the new law (effective since July 21, 1961) he was not eligible for pension consideration because he lacked 90 days of service in one wartime period or the other. Now, however, his service can be combined to give him the minimum of 90 days wartime service required.

The service officer said indications are that the Federal Veterans Administration will not make an automatic review of its files to discover the names of those veterans who may have been denied pension previously under the old law. He urged any such veterans, therefore, to contact the Veterans Service Office immediately to file a new claim. The office address is th Old Courthouse, Redwood City, telephone EM 9-1441, extenion 221.

Another important point, he added, is that widows and children of such veterans may be entitled to survivors' pension benefits previously denied on the same basis. They also should contact the service office.

Public Law 87-101 includes a provision, however, that pension shall not be paid for any period prior to the effective date (July 21, 1961) to any person whose eligibility is established solely by the new law. In other words, the law is not retroactive earlier than July 21.

## Local Schools Share in 50th Year Savings

Daly City, Westlake and Colma schools this week share in an historic occasion: the Golden Jubilee of Bank of America's school savings program founded in California by A. P. Giannini in 1911.

In honor of the 50th anniversary, Governor Edmund G. Brown, in a formal declaration, commended the program and said: "I urge all California to join in observing September as School Savings Month."

There are 7,657 school savings accounts in the Daly City, Westlake and Colma areas this fall. Daly City schools are among the 4,727 schools all over the state which participate in the bank's thrift program.

The first account in Bank of America's program was opened 50 years ago in San Francisco by Maxwell P. Williams, then a student at the John Swett School, who still carries his original account.

Commenting this week on the anniversary, Williams, now a successful businessman in San Francisco, said: "I learned through school savings that you must do something to save toward security, especially if you work for yourself."

The school thrift program, which has changed little in the 50 years since Giannini founded it, is the largest this year that it has ever been. There are presently 1,408,118 school savings accounts in the bank's program.

The average size of these accounts, started with nickels and dimes, is $26.62. The bank absorbs a substantial loss each year in order to bring this service to the schools.

## Caroline Dixon Opens Big New Alec Center

Although the bag pipers in their Scot kilts and their skirling music attracted many it was Miss Caroline Dixon, star of "My Fair Lady," who actually starred at the opening of the huge new Alec Membership Shopping Center in Colma last week.

Miss Dixon, a vivacious brunette actress whose performances made a sell-out possible at the Geary Theater long before the last week of the run, was the snipper who cut the ribbon opening the new store.

Alec Land, representing the board of directors of the new membership shopping center, welcomed the crowds after he had held the ribbon for Miss Dixon's precise snipping. Eddie Le Roy served as master of ceremonies.

A helicopter lofted the first Alec member, the oldest and first set of twins to sign-up into the skies above Daly City, Westlake and Colma areas for an aerial view of the center.

The Alec Center was quickly opened for business with hundreds jamming the store to file applications for membership. Civic and county officials were given brief introductions by the master of ceremonies.

The new Center which has 100,000 square feet of floor space under the one roof also is the first center in northern California that incorporates meat and produce departments in the membership type of shopping center.

It is located on D street in Colma, just one block off Junipero Serra and Eastmoor Drive, and is equipped with the latest in electronic computing and reporting machines and ultra-modern communications systems, both telephone and via loudspeaker.

## Yom Kippur, Jewish Atonement Day, Begins At Sundown, Sept. 19

The most sacred day of the year for Jews is the Day of Atonement — Yom Kippur. It will be observed this year beginning sundown on September 19 for one complete day.

During this period, the Jew not only reaffirms his belief in the synagogue, but he also re-evaluates his own personal deeds and behavior and re-examines ways in which he may, during the coming year, improve his service to God, man and family.

Services are conducted from sundown to sundown in the synagogue beginning with the opening liturgy in the prayer book — the Kol Nidrei service, which means in essence: "For all our sins during the past year, Oh God, please forgive us." The traditional melody asbecome familiar to many through its rendition by distinguished cantors and singers.

On Yom Kippur, the Jew abstains from food and drink, thus indicating the solemnity of the occasion and severity with which he es his life.

At the conclusion of the service, a series of blasts from the Shofar, the ram's horn, is sounded to mark the end of the ten Days of Awe, which began on the Jewish New Year, Rosh Ha-shono.

Judaism places great emphasis on man's deeds on earth and his ability to use wisely the powers given to him by God. For this reason, the Yom Kippur prayers, sermons and meditation direct the worshipper to an intensive reappraisal of his

Dr. Albert J. Rice, a physician in clinical orthopedics with the Permanente Medical Group, San Francisco, and a Daly City resident, was named today as the Medical Officer for the newly established 8651st Air Force Reserve Recovery Group. Col. Oscar R. Street, Group Commander, made the appointment.

A 26-year veteran who saw service in Egypt, England, Germany and France, Dr. Rice holds a bevy of decorations. They include the Bronze Star, American Defense, American Theater, WW II Victory, Longevity, and Reserve Forces medals; the American Theater ribbon, and the European Theater with seven battle stars.

A native of Ardmore, Okla., he participated in football, track, and boxing while attending high school in Dallas, Tex., and later Southern Methodist University. He obtained his M.D. from Baylor University in 1931, and later attended the School of Aviation Medicine at Randolph Field, just before World War II.

He is active in the Masons, Optomist Club, Elks, American Medical Association, and the Aero-Space Medical Society. He makes his home at 832 Higate drive, with his wife, Letona, and son, James, aged 24.

The new Air Reserve Recovery program gives USAF aircraft alternate landing fields, should they be unable to return to their home bases after a mission. Preparatory to carrying out their own mission, recovery units are being established in California and throughout the nation. Sites are civilian airports and bare landing strips suitable for use as alternate runways.

In an emergency, air reservists with civilian help will "recover" returning USAF planes, treat injured crews, and get aircraft airborne to fight again if necessary.

## Holy Angels Lions Win Colma Midget Pennant With 4 To 1 Victory Over Misracks Nine

**The Holy Angel Lions walloped the Misracks Cubs 4 to 1 last Tuesday on the Colma diamond to cop the Colma division flag race in the Colma Midget League.**

**Mike Gallagher bore down hard on the Misrack batters and chalked up a no-hitter, but one of the Misrack stickmen he had walked managed to cross the plate with a lone tally. Gallagher struck out 11 batters but gave eight men a free trip to first base.**

The winner's runs were chalked up with a single by Allen O'Cese to drive in one run, another single by Bobby Collins that accounted for two more runs and then Gallagher stepped to the plate and drove in the fourth run with a neat double.

The Lions had previously moved into a tie with the Misracks for first place. They shut out the league-leading Our Lady of Perpetual Help team on another Mighty Mike Gallagher pitching spree when he held the OLPH lads to a one hitter for a 8-to-1 victory. Doug Matgen had turned in a nice performance with two for two and some great defensive play.

The Lions also edged out their hometown rivals, the Holy Angels Colts, 1-0. In a great pitching duel, Larry Naninni and Ricky Camous fought all the way to the wire. Both boys allowed three hits but on error by the Colts gave up the single run that gave Naninni of the Lions the nod as the winning pitcher. It should be noted that both pitchers received fine defensive support.

In other Colma Division games, the Pal Giants really discovered what their bats were for. The Giants collected 25 hits in their last two games. Against the Holy Angel Colts, they rapped out 10. Guglielmoni, Hackett and Berry were the big stickmen as they downed the Colts, 18 to 8.

In their game with the Daly City Orioles, the Pal Giants slammed out 15 hits. Albert Leiske, Ron Starkey, John Cardinale and Dick Felix accounted for more than their share.

**MARCHBANKS DIVISION**

Parkmerced copped the crown in the Marchbanks Division with a perfect record.

BYA Art Colvin nailed the BYA Blazers, 6-3, and by so doing took second place. The game was tied up at 2-2 when Mike Curso ploughed a double and Grady Proctor slammed out a triple with men on base. In that division, the entire Art Colvin BYA team graduate to the Juniors next season. Coaches Rock Kubowitz and Frank Rodriguez wish the boys the best of luck in life and baseball.

The PAL Indians steamrollered into third place with a win over BYA Relish Bakery, 18-1. Jones and Boden combined to allow the Bakery boys only two hits. Blevin and Runge collected three for five each, and Jones scored six runs.

BYA Little Giants finished in fourth place with a big win over the BYA Blazers, 17 to 2. Steve Back gave a great performance both on the mound and at the plate. He gave up three hits and slammed out a homer, triple and a single—three for five.

**WESTLAKE DIVISION**

As reported last week, the PAL Red Sox finished with a perfect record for first place. This week Misracks Cardinals battled Toto's for second place. Misracks Cardinals were leading, 5 to 4, when the game was called because of darkness. Dutto and De Memlo both hit Carper 2 for 2 in addition to three hits by other players. Toto's could only count with four of Agar's pitches. That told the story as Misracks took second place in a five inning game.

In a make-up game, Misracks also defeated the PAL Braves, 16-7. De Mello, Dutto and Weinberg starred in this one as they all hit over .500.

**EASTERN JUNIORS**

D & S Lumber, inactive through the first part of the league, came through with two wins this week. They edged out New Pisa in their first game, 2-0. D & S pitcher Andrade allowed New Pisa three hits. In their game with Parkmerced, Andrade shut out his opponents. This boy is really developing. From the role of relief pitcher at the beginning of the season, he has become the star for D & S. D & S scored six runs in his shutout. Arnold Ertola hit two for two in the process.

**WESTERN JUNIORS**

Misracks Juniors defeated the BYA Falcons to take the top spot in the Western Division. Unfortunately, results had not been turned in at press time.

The Falcons took BYA Art Colvin earlier in the week to cinch second place. Dick Homberg gave up one hit to Art Colvin. Homberg's performance was aided by two great catches by Mickey Mangrim. Berry and Phelps were the big Falcon men at the plate as the Falcons won, 4 to 1.

Mount Conness in Yosemite National Park was named by the Whitney Survey in 1864 for John Conness, United State Senator, 1863-69, who introduced the bill granting Yosemite Valley and the Mariposa Grove to the State of California.

## PAL-BYA Tigers Lost Series To Texco 10 to 1

PAL and BYA Tigers of Daly City lost to Hugh Texco 10-1 in the Midget World Series. Val Sabuco made several saves and captured fielder of the day honors. Ray Frugoli hit a double for the Tigers. Grady Proctor had the only RBI — a 3-base hit with LaRosa on first.

Matty Rosso sliced a pinch-hit single in the sixth inning. Ron LaRosa started on the mound for the Tigers but was chased from the hill after two-thirds of the first inning. Grady Proctor came on for two and one-third innings and was relieved by Joe Farrel who lasted one inning before he was tossed out. Wayne Selber then put the fire out and held the opposition to one hit by Hugh Texco in the final two innings.

**CARDS IN SEMI-FINALS**

The PAL Cards of Daly City advanced to the semi finals of the Peninsula Midget League by beating Silver Terrace, the regular season winner, 1-0 as Bobby Nolan pitched a 3-hitter at Silver Terrace and shut out Silver Terrace for the first time all season.

Bobby also had 11 strike-outs and walked only three. Kieth Stoller and Val Sabuco each had 2 for 3. Ron LaRosa drove in the only run in the first inning with a double.

In the other Peninsula Play-off game Parkside Yankees out hit PAL Constables 10 to 6 but lost the game 6 to 1. The PAL Cardinals of Daly City battle the PAL Constables Wednesday, Sept. 13 at 5:45 p.m. at Parkmerced. The winner will play Silver Terrace for the championship at a later date.

## Upland Bird Outlook Varies Good To Poor

Pheasant, quail and chukar brood counts by the Department of Fish and Game forecast average or better hunting seasons on these upland game birds this year in the north and central areas of the state, with hunting expected to be very spotty in southern California and on the desert side of the Sierras.

Timely rains in the later winter and spring resulted in good pheasant production in the state's major pheasant areas and good quail production from the Tehachapi Mountains north.

Continued severe drought and poor feed conditions during the nesting period cut down upland game bird production this year in most areas of southern California and the Inyo-Mono country, but there are local exceptions.

Quail season opens statewide Oct. 28, ends Dec. 17 in the northeastern corner of the state, and continues through Jan. 1 in the rest of the state. An exception is the additional special mountain quail season in portions of the central Sierra, Sept. 30 through Oct. 8.

Pheasant season opens statewide Nov. 11 and continues through Nov. 26, in most of the state. Exceptions are that pheasant season continues through Dec. 10 in Imperial County and eastern Riverside County, and that the season on two state-operated pheasant coops in southern California ends Nov. 20.

## It's SPARE TIME at Westlake Bowl

by Jim Grealish

**Westlake will undoubtedly have the best dressed bowlers in the area during the coming season. The teams in the 900 Scratch Westlake Masters Leagues will not only have team shirts but will also have team slacks. Adding to the dress parade will be Dorothy Moyles' sixteen team A-1 Nursery League on Tuesday mornings all attired in the same colored shirts with embroidered plants on the back. The teams will be named after flowers—what else?**

The sixteen team Brunswick Travel League was off to a fine start last Thursday with Esther Del Monte of the Marian Bowl team leading the field by shooting a terrific 245 game.

As the Aid Retarded Children's Tournament drew to a close the entry list approached 4000, insuring the success of the Tournament. There were over forty Westlake qualifiers for the Tuesday September 12 Westlake Roll-offs.

**The Grand Rolloff of the top qualifiers from the thirteen participating bowling centers will be held at Westlake afternoon September 16. The Grand Prize Winners will receive their prizes immediately after bowling.**

The Physically Handicapped Indoor Sports Association bowling group at its regular Wednesday session contributed $1.00 per bowler to the Aid Retarded Children Tournament in a most gracious gesture.

**MARTHA LAUER RETURNS**

Martha Lauer, Westlake representative of the San Francisco Bowling Association has returned to assist in the formation of daytime groups. She reports that the first day back was quite a strain with the Holy Rollers League forming with 18 teams, B'nai B'rith with six and the Early Risers and St. Thomas More with eight teams each. She announced that the Thursday morning leagues are filled but the Thursday afternoon Westlake Keglerettes have openings for two teams.

**The 101 Club five took an early lead in the Second Annual Westlake Team Handicap Tournament with a 3049 total led by Boyd Hillyer's 594 series and Primo Liberatore's 592 effort. With over twenty teams bowling during the first five days of the Tournament, the total entries should exceed the 200 mark.**

Boyd Hillyer's 458 first two game total including handicap places him on top in the optional singles feature. The Tournament will run until October 15 with over $2,000 in guaranteed prizes.

There's activity in the Junior circles once again. With school back in session, the Saturday morning Junior groups will spring into action Sept. 16. Signups on Saturday indicated that this year's program will be much larger than in the past due to the great increase in the Bantam age group.

The Friday afternoon instruction group will continue as in the past. Coach Dick Truesdell reports that parents are welcome on Saturday mornings to watch the progress of their offspring.

The North San Mateo County YWCA goes into action at the Bowl this week with Models' Training Class at 9:30 a.m. Friday, Area Committee Meeting at 3:15 p.m. Thursday, and North San Mateo Group Meeting Monday at 1:30 p.m. Director Elaine Wolfe has scheduled the first Fashion Show for November 2. The YWCA Bowling League meets at 9:15 a.m. Sept. 19 with an instruction period preceding the weekly league play.

## "Y" To Hold Open House On Monday

One of the most important events in the fall calendar of the YWCA of North San Mateo County is the yearly Open House that will be held Monday, Sept. 18, at the Westlake Club House from 10:30 a. m. to 2:30 p. m. Theme of this year's prelude is "Here's Your Cue to a Happier You."

This is the opportunity to preregister for the many "Y" classes that are available in this area. All of the YWCA teachers will be present to answer questions about both the child and adult classes. In tune with the theme of the day will be the new course in self-improvement for the fair sex.

A highlight of the day will be the awarding of 25 beautiful plants that have been donated by Joe's Nursery of Skyline Plaza and Colma. Everyone at Open House will be eligible to win one of these plants. Joe's will also furnish decorations for the clubhouse. Refreshments will be served compliments of the Westlake Bowl.

"Y" director Elaine Wolfe urges everyone who would like to know more about the "Y" and its many varied classes to come and bring the children as everyone is welcome. This is a good time to join the "Y" and let it help you to have a good time. "Here's Your Cue to a Happier You."

## Good Nutrition Is Necessary For Youthful Vitality And Vigor

Youth power — the bounce, the stamina, and the personality of youth — is very largely food power, Dr. Gaylord P. Whitlock told California 4-H club adult leaders here.

The head of the state-wide family and consumer science program of the University of California Agricultural Extension Service said that in spite of America's more than abundant food supply many millions of people make such poor choices that their diets are inadequate. This is a problem particularly of youth, "and, more particularly, of teen-age girls," he said.

Dr. Whitlock, leading a discussion of adult leaders during the annual State 4-H Leadership Conference on the Davis campus, said scientific studies at America's leading universities, including the University of California, show diet quality usually declines after age 12 and its nutrients most often lacking are calcium, vitamin A, vitamin C, and sometimes iron.

"If youth wants to have stamina and coordination, and if the girls want trim figures and pretty complexions, pleasing smiles, and effervescent personality, food must come first," the University nutrition leader said.

"Nutrition authorities agree that the best way to buy vitamins and minerals, and other nutrients of food, is in the packages provided by nature itself—vegetables and fruit, milk and milk products, meat, fish, poultry and eggs, and whole-grain or enriched breads and cereals.

"The usual food supply available to most of us now includes, the year around, such a variety of food that most persons can hardly fail to have an adequate diet — if they choose wisely their daily fare."
